

Colloquia 251 Guest Speaker List
Spring 2005
Changxuan Mao

4/12/05	William Strawderman	Dept. of Statistics Rutgers University	Improved Estimation of Restricted Parameters
4/14/05	Zhu Ji	Dept. of Statistics University of Michigan	Variants of the Support Vector Machine and Their Applications to Microarray Classification
4/19/05	James Gareth	Marshall School of Business, USC	Curve Alignment by Moments
4/28/05	Xiaowei Yang	UCLA Substance Abuse Service Inpatient Unit & BayesDoft Inc.	Bayesian Variable Selection for Generalized Linear Models with Missing Covariates
4/26/05	Katherina J. Kechris	Visiting Post doc Dept. of Biochemistry & Biophysics UC San Francisco	Statistical Methods in Bioinformatics: Discovering Regulatory Sequences in DNA
5/03/05	Brian Wiens	Amgen	Fallback, Gatekeeping & related Strategies for one or more families of hypothesis
5/03/05	Sining Chen (Candidate for Stat. Tenured Position)	Postdoc Johns Hopkins University	Design & Analysis of Cancer Risks from Major Genes
5/10/05	Jin Xu	Researcher Dept. of Statistics UCR	Some recent results on multivariate tests for mean vectors under nonnormality
5/10/05	Michael Donohue	Dept. of Mathematics UCSD	Rank Regression and Synergy Assessment
5/23/05	Max Welling	School of Information & Computer Science UCI	An Expectation Algorithm for inferring Offset-Normal Shape Distributions
5/24/05	Gang Liang	Dept. of Statistics UCI	A Fast Lightweight Approach to Origin-Destination IP Traffic Estimation Using Partial Measurements
5/31/05	Zakkula Govindarajulu	Dept. of Statistics University of Kentucky	Robustness of Sample Size Re-estimation in Clinical Trials of Comparing Several Treatments
